January 19, 1937.

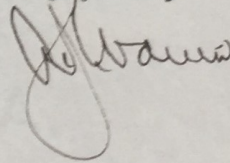

Dear Dr. Domingo:

We have given careful consideration to your letter of January 8th, and it is with regret that we have to advise you that it is impossible to accede to your request for financial aid to continue the typhoid studies at the Finlay Institute.

This Division does grant a limited number of fellowships each year, but they are reserved for public health officials who have a definite position in their country, and are awarded only at the request of Government, who signs an agreement to give the individual a position on the completion of his studies.

It is hoped that you will be able to find other means to continue your investigations.

Sincerely yours,

Dr. Pedro Domingo,
Institute Finlay,
c. Infanta y Crucero,
Havana, Cuba.
